

RS&C

JavaScript

Ne JS

//*generalanswer*/

Why **RSC**?

/ general answer */*

Javascript was the problem

~~No~~ **JS** is the solution

SSR

vs

RSC

- First load on server
- Navigation is CSR
- Bundle size is same
- Requires more server load

SPA

- Can do first load on server
- Benefits from server on nav
- Bundle will not include server code
- Server load can be less
- Simplifies load sequence

SPA
